Technical Information

Each poster must be in the size of **0,85 m width** and **1,2 m height (DIN A 0)**.
The **poster number (abstract ID)** will be mounted on top of the board.

Please bring your **printed poster** to the conference venue. Please note: there will be no possibility to print your poster onsite.

Material for attaching the posters will be supplied by the organisers. Writing or drawing on the poster board is not allowed.

Preparation of the Poster:

The **author's name and address** and the **title of the paper** are to be indicated on the top section of the poster.

As a major guideline it is proposed to make the poster intelligible in itself, even in the absence of the presenting author. It is suggested to divide the content of each poster into **Introduction, Results** and **Conclusions** sections, with a summary listing the pertinent results and conclusions.

The poster should be legible from a distance of 2-3 meters.
Therefore, the **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/adresses of the authors in the heading label;
- 1,5 cm for sections headings such as introduction, results, labeling of figures and tables;
- 0,8 cm characters in height for further text.

Line spacing: 1,1 cm at minimum; 10 of such lines correspond to one figure.

Please use colours, symbols and schemes for improved clarity.
